

INTRODUCING POLY G7500

THE TYPICAL VIDEO COLLABORATION EXPERIENCE CAN BE FRUSTRATING

MULTIPLE DEVICES CREATE CONFUSION

Why that's a problem:

- Frustrates users
- Slows training and reduces adoption

AUDIO AND VIDEO SOLUTIONS COULD BE BETTER

What's lacking?

- True human connections
- Content detail
- Audio commotion distracts users

SYSTEMS ARE COMPLEX TO DEPLOY

What's kept IT so busy:

- Deploying and managing multiple devices is time-consuming
- Cabling can be a nightmare
- Outfitting conference rooms is expensive
- Proprietary connections limit choices

POLY'S VIDEO ROOM VISION

- **Content at the center**
- **Intuitive at first sight**
- **Platform agnostic**
- **Standards-based simplicity**
- **Platform for the future**

SEE DETAILS YOU NEVER KNEW EXISTED

Introducing the Poly G7500

- Content and video come together
- Ultra HD 4K for amazing clarity
- Deployment-friendly architecture

CONTENT AT THE CENTER

And no ideas get left behind

- Share wirelessly from any device (even guests)
- Touch ready intuitive interface
- Infinite whiteboarding for seamless collaboration
- 4K content to see every detail

TEAM MEMBERS EXPRESS THEMSELVES CLEARLY

Connecting people at a human level

- Ultra HD 4K to see every expression

Find your voice

- Legendary Poly audio to hear every nuance
- NoiseBlock and Acoustic Fence to keep the conversation focused

SMOOTH EXPERIENCE FOR EMPLOYEES AND IT

IT sees fewer headaches

- Proprietary cables – no more
- Backwards-compatible keeps money in your pocket

Employees catch on fast

- There's only one interface to learn
- Intuitive design for rapid adoption

THE TECHNOLOGY

G7500

PHYSICAL FEATURES

AT A GLANCE

1/8" AUDIO IN/OUT

APPENDIX

TAKE CONTROL OF EVERY MEETING USING OUR APP

Download the free Poly Control app starting with s/w version 2.1 at www.poly.com/G7500.

- It's great for administrators or users who'd like a touch-control alternative to the G7500 remote control
- Android APK available for certain Android devices.
- Most functionality is available through the use of the Poly Control App
- Beta feature
- Available with 2.1 software release
